## FIRE DOOR SERVICES

Vortex Doors is a complete Commercial & Industrial Door Repair and Service Company. Our Fire Door Service Program is one of the many services we offer.

Our Fire Door Program Insures that your Rolling Steel, Swinging, and Sliding Fire Doors are tested annually as required by State Law.

We will simulate an emergency situation to see if the doors perform as per fire codes in the event of a real emergency. All safety check points will be tested and reported back to you for your records.

Fire Door  Certifications
